INTRODUCTION

www.wordmeaning.org is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

John Rene Plaut has contributed to the dictionary with 11532 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

1797 nelumbium javanicum poir

NELUMBRIUM JAVANICUM POIR , 1797 , LOTO species (Nuciferous Nelumbo) . Aquatic plant of the Nelumboaceae family. It is the national flower of India. It is a sacred flower and has been, since time immemorial, a symbol of good omen in Indian culture. It symbolizes purity, beauty, majesty, grace, fertility, abundance, wealth, wisdom and serenity. According to Greek mythology, a beautiful goddess fled into the scared forest and went to a place called Lotus where it sank, a place named after the supreme gods destined for the losers and losers in life. The young goddess fought for centuries and managed to come out in the form of a beautiful flower, of long petals. For this reason, for the Greeks it meant triumph after having fought tirelessly against failure. In the natural state of the plant in ponds and lagoons, between 0 and 400 meters above sea level.
