## INTRODUCTION

www.wordmeaning.org is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

Anónimo has contributed to the dictionary with 1 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

**servidor web**

A server is a computer designed to meet the needs of other computers (computers, smartphones, etc. ) . Servers can save and/or provide information, manage processes, etc. A web server is a software with the function of storing web information, and providing it to user computers. That is, this software allows you to review any website. Thanks to him you can read this post. Thus, the expression does not refer to a computer as such, but to a software.
